## What are the benefits?

### Assurance

**Don't get caught short without a job and rent to pay.**

The UK is an expensive place to live when you are spending Aussie or Kiwi Dollars. It can take several weeks to secure a job and this can amount to hundreds, even thousands of dollars of your holiday savings spent on setting up accommodation, travelling to job interviews and general living expenses.

It can be a big risk to leave your job here and travel to the other side of the world to find work. You really need to do your research and know what you are in for. Talking to one of our UK Recruitment Specialists before you go will ensure that you know exactly what your options are and that you have given yourself the best chance of securing a great job as soon as possible.

### Convenience

**We've got the experience, the contacts and we've done the research so you don't have to.**

Our UK Recruitment Specialists have extensive experience in international recruitment and know the UK market intimately. We are connected with a large network of recruiters who keep us up-to-date with what's happening over there and we often know about all the best jobs. We can also help you with the boring admin bits like getting your CV ready!

### Advantage

**Statistically, you increase your chances of getting a job within the first few weeks by 75% if you line up your interviews before you go.**

We will get you on the right recruiter's radar before you arrive so that you are front of mind for the best jobs as soon as you arrive. We know that candidates who start the process before they leave are often securing work in their first week in the UK. In some industries, it's even before they arrive!
